R 1495.00

Infra-red Thermometers brand new. Great for screening your staff and visitors. call Tom +27657111907

Infrared Thermometers. An infrared thermometer infers temperature by measuring the thermal radiation that an object emits. This means that temperatures can be measured at a distance, without having to be in direct contact with the object. (Face Mask)

Medical face mask can be used once for extra hygiene. This medical device is CE certified and suitable for use in hospitals and institutions.

Specifications Medical Face Mask:

Suitable for medical use

We recommend that you take an outer carton for quick handling. This means 40 pieces.
